Response to Amendment/Arguments

1. This action is in response to the amendment filed on February 22, 2006, which has been entered.
2. Claims 10, 12 and 14 have been cancelled.
3. Applicant's amendment has rendered moot the 35 USC § 102 and 103 rejections by incorporating allowable subject matter indicated in the previous Office action. Therefore, claims 1-9, 11, 13 and 15 have been allowed.

Allowable Subject Matter

4. Claim 1-9, 11, 13 and 15 are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. Regarding claims 1 and 11, and similarly claims 7, 9, 13 and 15, the prior art of record fails to teach or suggest, alone or in combination, a moving image encoding apparatus comprising, along with other limitations:
 - Wherein the interframe encoding parameters are set to decrease
(claim 1) a distance between an I-picture and a neighboring P-picture
of a Group of Pictures (GOP)

Art Unit: 2625

(claim 11) a distance between a nearest neighboring two P-pictures

Closest art of record Watanabe et al. (US 5,894,526) discloses reducing the distance between a reference frame (i.e., I-frame) and a predicted frame (i.e., P-frame) when a condition is met [Fig. 5, refs. S5, S8 & S9. Note: Since it is well known in the art that the numbers of B-pictures between an I-frame and a P-frame and between two successive P-frames are typically the same, the decrease in one distance implies a corresponding decrease in the other]. However, it does not teach that the distance is decreased regardless of how the condition (e.g., the amount of the extracted feature recited in claim 1) is met.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
